serva.

Book Anything. Pay Seamlessly.

The universal marketplace for appointment-based services.

Seed Round | $3.5M | April 2026

The Problem

Booking a service today is broken for everyone.

For Consumers

5+ different apps
to book across service types

Re-enter information every time
name, address, health history, preferences

Phone calls during business hours
40% of consumers want to book after hours

No unified payment or history
scattered receipts and confirmations

For Businesses

$150+/month on fragmented tools
scheduling, website, payments, marketing

10-15% revenue lost to no-shows
no deposit system or automated reminders

No online discovery channel
relying on word-of-mouth and Google

Paper intake & manual processes
clipboards, phone tag, cash registers

The Solution

One platform. Every service. Seamless booking & payment.

01

Discover

Search by service, category, location, rating, or price

→

02

Book

Pick a service, select a time slot from real-time availability

→

03

Intake

Fill out custom forms digitally before your appointment

→

04

Pay

Stored payment. One tap. Receipt in your pocket.

Free for businesses to list. Consumers pay at booking.

Market Opportunity

TAM
